SKILLS

Programming Languages:

C++, Java, Python

Web Development: HTML, CSS, JavaScript

Systems: Unix/Linux Environment Development

Core Concepts: Data Structures and Algorithms

Other Skills: Fluent in Chinese

EDUCATION

The University of Texas at Dallas

2022-present

(Expected Graduation Date 2025 fall)

BS in Computer Science

Houston Community College

2019-2022

AS in computer science

PROFILE

Computer Science student at the University of Texas at Dallas with a passion for programming (web), data structures, and a detail-oriented working ethos. Proficient in C++, Java, and Python and Unix environment development. Build responsive webpages using HTML, CSS, and JavaScript. Love to explore and work with new technology to devise solutions for contemporary problems. Fluent in Chinese and ready to join in collaborative and innovative projects.

EXPERIENCE AND PROJECT

Personal website (project)

2024-2025

- Developed a responsive website using HTML, CSS, and JavaScript.
- Designed user-friendly layouts and implemented interactive features to improve usability.
- Showcased proficiency in front-end development and web design.

Minor Leader of Servicer
Company: Haidilao Hotpot

2021-2022

- Assisted in managing daily operations, ensuring high-quality customer service and smooth team coordination.
- Supervised a team of 12 staff members during shifts, delegating tasks and resolving issues effectively.
- Trained new employees on company standards, operational procedures, and customer interaction protocols.

Voice Reversal Application (project)

2024

- Developed a program to reverse user-provided voice files, demonstrating proficiency in file manipulation and audio processing.
- Implemented the functionality using the **stack data structure**, ensuring efficient handling of audio data.
- Designed the program to allow users to upload their voice files and receive reversed outputs in real-time.
